STRATEGIC PLAN

2021–2026

Progress Update – June 2023

ABOUT THE AIU

The Allegheny Intermediate Unit, also known as the AIU, provides an array of high-quality, cost-effective educational services for students of all ages in Allegheny County. Serving students and educators in all 42 suburban school districts and in non-public schools, the AIU also operates 10 family centers and three schools for exceptional children.

Located just outside Pittsburgh, the AIU is one of the largest of the 29 intermediate units in Pennsylvania and is led by a 13-member board. The AIU receives funding through fees for service and a variety of public and private grants.

EXECUTIVE SUMMARY

AT THE BEGINNING OF THE 2020-2021 SCHOOL YEAR, the AIU's Board of Directors and Executive Leadership Team determined that a new strategic plan was needed to continue the organization's growth and its tradition of providing premier educational services. The administration developed an internal facilitation process and identified key stakeholder groups that would collaborate to create a comprehensive plan.

In early 2021, the AIU invited 1,980 internal and external stakeholders to provide feedback on several key strategic concepts embedded within the plan. This feedback was incorporated into new mission, vision, and belief statements. The committee also developed strategic goals and objectives that will guide the organization's activities over the next five years.

The final strategic plan was approved by the AIU's Board of Directors on June 28, 2021, and has become an important foundational document for the agency. The plan provides a transparent overview of where the organization is going as well as direction for board members, employees, and external stakeholders.

I want to thank everyone whose voice helped shape this strategic plan. In particular, I am grateful to the six members of the facilitation team for their tireless efforts to shepherd this process, and to the 26 members of the Strategic Planning Committee who represented a variety of stakeholders and came together each month to provide a unique perspective on this effort. Thank you for your commitment to the work of the AIU as we advocate and advance equitable opportunities for every learner!

Through **collaboration** we encourage the diversity of thoughts, experiences, and backgrounds and celebrate participation and partnership in all of our endeavors as a connector of entities and resources.

We ensure programs and services are available, accessible, and **valuable** to our community.

We are dedicated to ongoing, evidence-based **improvement** and challenging the status quo in order to advance education and provide rich and relevant opportunities for all learners.

We champion education through meaningful teaching, learning, and development across life stages for all community members through **equitable** access to resources, relationships, and opportunities.

We believe that we are all **educators** and **learners**, regardless of our role in the organization. Education is not limited to the four walls of a classroom, but a life-long process that helps us grow and thrive in a changing environment.

We believe that demanding anything less than **excellence**, internally and externally, is sacrificing the potential that all learners possess, regardless of situation or circumstance.

We inspire **innovation** by never giving up on seeking creative ways to conquer the dynamic complexities of an ever-changing world for all that we serve.

We model a culture of excellence, inspiring effective **leadership** that supports effective teachers, successful students, and a strong community.

We are **responsive** to the needs of all learners and work to continuously refine and reform education to meet those needs.

We honor our commitments and promote fairness, respect, honesty, integrity, transparency, and **trust** in all that we do.

AIU STRATEGIC GOALS AND OBJECTIVES

The strategic planning process led to six organizational goals that will guide the work of the AIU from 2021–2026. Strategic objectives were then developed to provide a supporting framework for the strategic goals and help achieve the established vision. The Strategic Planning Committee then identified SMART goals for the first few years of the five-year plan. SMART goals are specific, measurable, achievable, relevant, and time bound. They tie directly to the strategic objectives and highlight specific actions that are typically accomplished within a year. SMART goals for the later years of the plan will be identified based upon the work that is initially accomplished in the first few years.
